How it works:
Teacher → Headmaster → Student & Guardian

App flow walkthrough

November 2026

petrait.site 016-16154320 petraitbd@gmail.com

THE FLOW

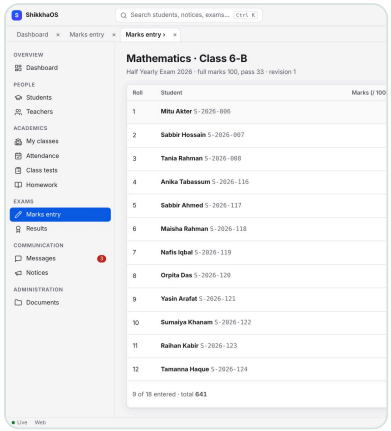

From classroom to the student's phone

Four people, one chain. Each step is visible to the next person.

STEP 1

Teacher

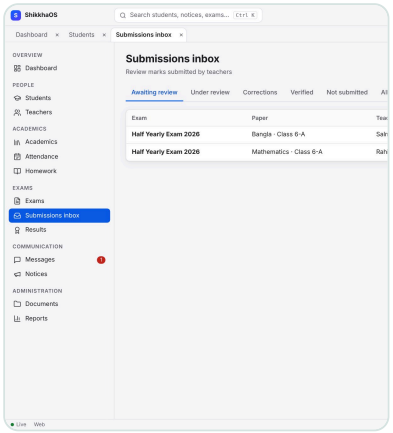

- Takes attendance
- Enters marks
- Submits to the Register

STEP 2

Register

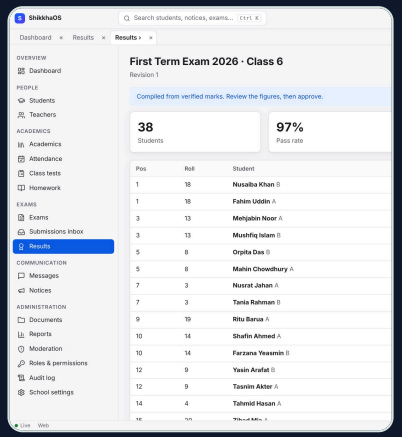

- Reviews each submission
- Requests a correction if needed
- Verifies and compiles the result

STEP 3

Headmaster

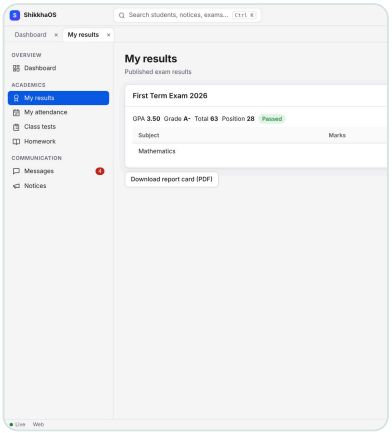

- Checks the compiled result
- Approves, or sends it back
- Publishes to students

STEP 4

Student & Guardian

- Student gets a notification
- Opens own result and report card
- Guardian views it with the student

Locked after submit

Marks cannot be changed quietly.

Two people decide

The one who verifies cannot approve.

Published is final

Any change is a new, visible revision.

TEACHER

Teacher: attendance, marks, submit

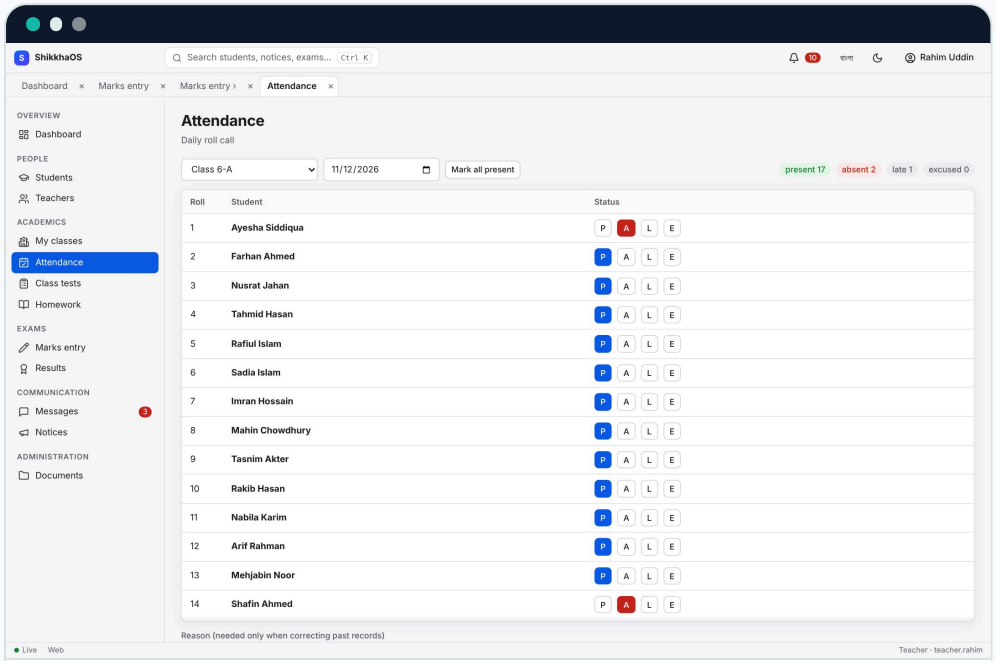

A teacher sees only their own classes and subjects.

1 Open dashboard
Today's work and any correction request

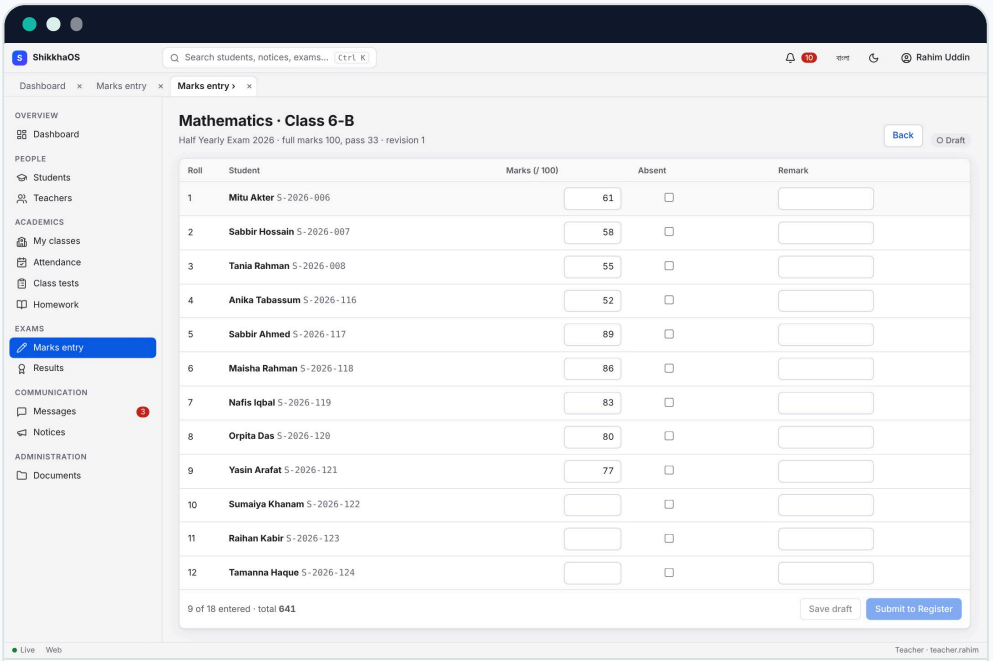

2 Take attendance
Present, absent, late in seconds

3 Enter marks
Invalid marks rejected on the spot

4 Submit
Marks lock and go to the Register

2 Attendance: present, absent, late

3 Marks entry: running total, save draft or submit

If the Register finds a problem: the teacher sees the reason and the flagged rows, fixes them and submits again as a new revision.

HEADMASTER

Headmaster: review, approve, publish

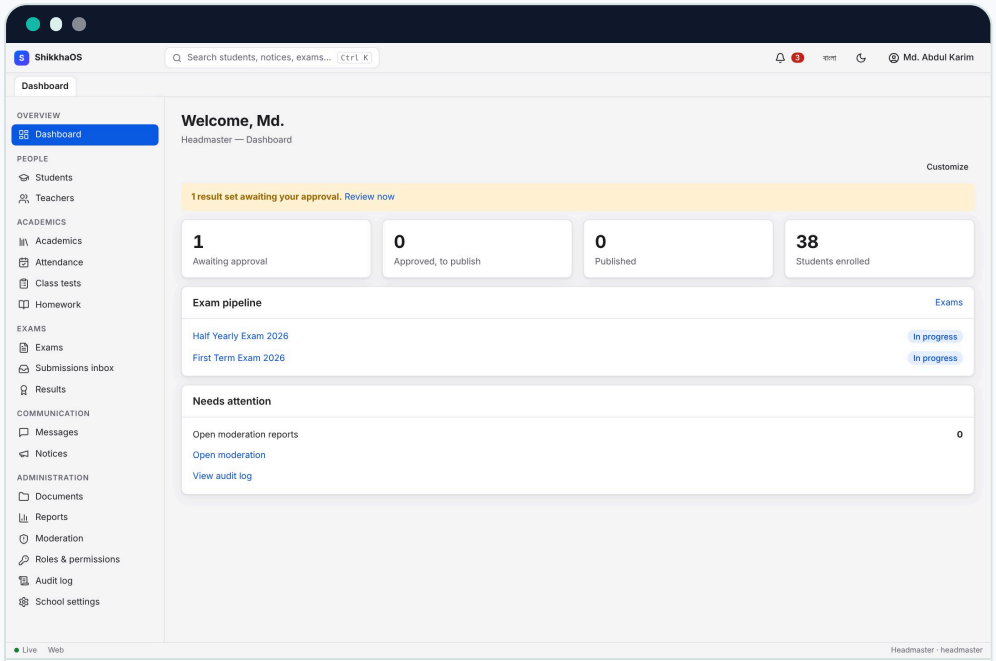

The Register prepares the result. The Headmaster decides.

1 See what is waiting
Dashboard shows pending approvals

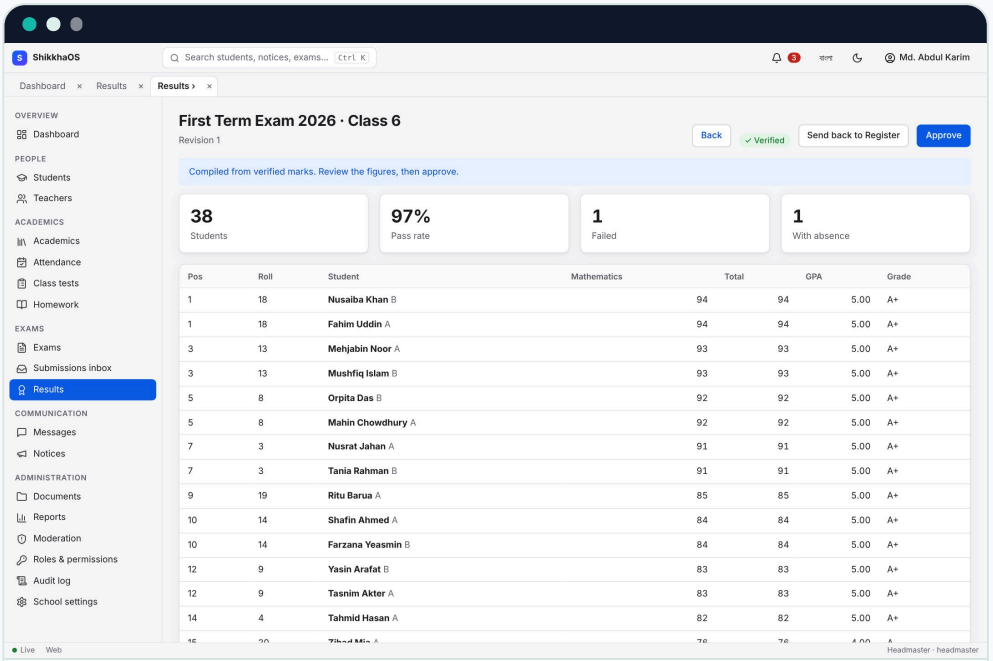

2 Check the result
Marks, pass rate, positions

3 Approve
Password typed again to confirm

4 Publish
Students are notified

1 Dashboard: pending approvals

2 Compiled result: approve, send back or publish

Safety: published results cannot be edited. Every action is saved in a permanent audit log.

STUDENT & GUARDIAN

What the student — and guardian — see

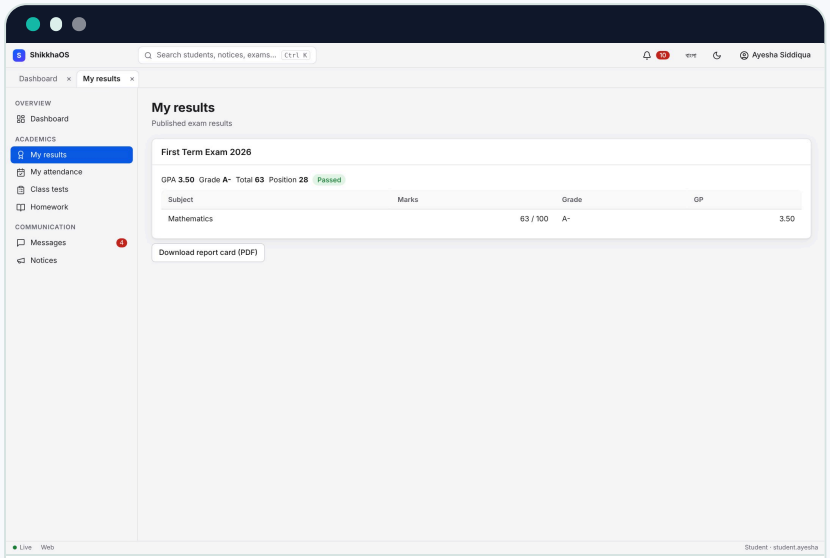

Students see only their own information. A guardian can view it together with the student.

1 Notification
"Your result is published"

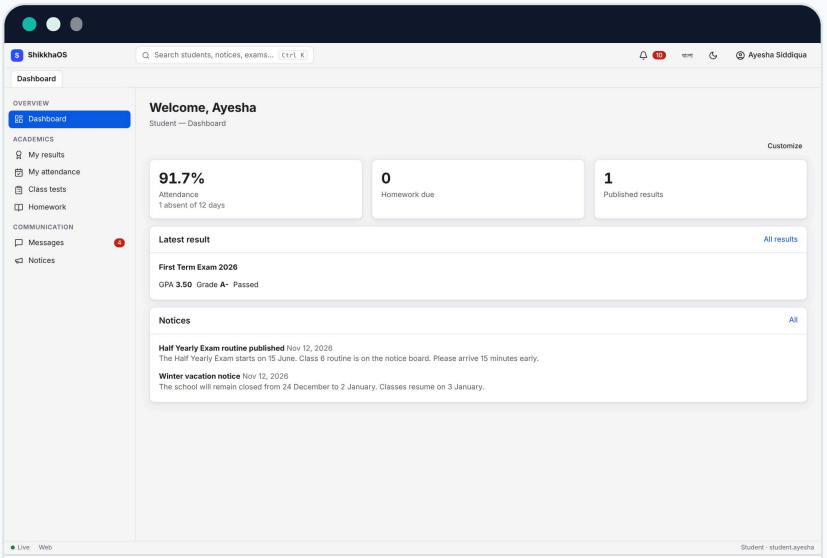

2 Open result
Subject marks, GPA, grade, position

3 Download report card
PDF to keep or share with the guardian

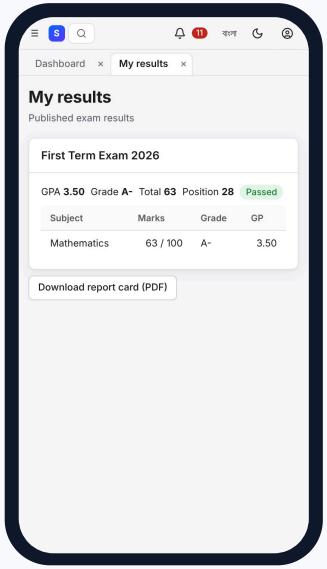

4 Stay informed
Attendance, homework and notices

2 Result on the web

4 Student dashboard

On a phone

Guardians: in this first release a guardian has no separate login. They see results through the student's account or the report card PDF; guardian phone numbers are stored for school contact.
